New Horizons

To prepare for the arrival of our bees in April, we have been busy cleaning the Apiary area, installing bee stands and empty hives.

Staff is learning valuable techniques at training conferences that will be used to build our colonies, AND give clients unique learning experiences as they follow the cycles of BEE HIVE LIFE.

it's going to be a buzzing place around here.

A huge thank-you to the Georgia Beekeepers Association for their support in this new adventure

Green Thumb Tips

- Cut back any dead growth to make way for new growth peeking up out of the ground
- Plant your spring cool weather garden
- Direct sow flower seeds
- Direct sow a spring garden with cool weather vegetables
- Weed now CONTINUOUSLY, before your weeds go to seed

Community Garden News

The Great Backyard Bird Count

event held in February was once again AMAZING. By counting birds in our Gardens we helped the Audubon Society track bird species, their migration & population.

All of the Community Garden events are open to the public, and we were thrilled to have Dayspring school come by to help make bird feeders for our Gardens and theirs.

Save the Date

March 16th from 10:00 to 2:00

To join us as we learn about seeds & sprouts for our spring gardens

Volunteers Needed ... and loved

We have many inside, outside, & digital opportunities available for you to help contribute to our mission

Art from the Heart

From designing jewelry, making intricate drawings, and expressing inner love ...
Art brings out our Creative selves

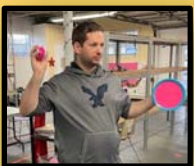

Around Campus

Learning life skills and celebrating each other brings us all joy.
Volunteers with big hearts make birthdays so very special.

Fitness is FUN

Staying fit is serious stuff ... whether it's skill competition, or stopping for a hug

That's Amore

Valentine's Day is always a wonderful time to dress-up and party-down. A special thank you to volunteer DJ Tanner for rocking the house with his dance music mix ... the smiles here tell the story
